homemakers' chat
FOR USE IN NON-COMMERCIAL BROADCASTS ONLY
U. S. DEPARTMENT OF AGRICULTURE

(To be used during week of July 14, 1941)

And here's a reminder to every housewife: a nation-wide drive is to be held next week to gather aluminum to be used for national defense. It will be a house to house canvass. So get ready now --by looking over your supply of pots and pans made of aluminum. See if there aren't some aluminum utensils you can get along without.

You will be making a contribution to national defense in two different ways: in the first place---the aluminum will go into defense materials; second---the money which the aluminum smelting companies pay for the metal will be used for civilian defense.
